

Diego Ramirez

Frontend Tech Lead | Bogota, Colombia

Languages: Spanish (native), English (advanced)

Summary

Frontend lead focused on React platforms, architecture, and maintainable product delivery. Experienced mentoring engineers, modernizing legacy apps, and collaborating with product, QA, and design system teams.

Experience

ClearRoute Labs | Frontend Tech Lead | 2021-Present

Directed migration of a legacy Redux app to React 18, TypeScript, Redux Toolkit, and feature-based architecture.

Introduced Storybook, shared components, and frontend standards used across customer dashboards and internal tools.

Worked closely with designers to convert Figma files into responsive, production-grade interfaces.

Set up Playwright smoke tests and component test coverage for critical flows.

Vector Apps | Senior React Developer | 2018-2021

Built analytics dashboards with React, GraphQL, and charting libraries for operations teams.

Improved web vitals and reduced repeated API calls through better caching and query invalidation strategies.

Skills

React, TypeScript, Redux Toolkit, Next.js, GraphQL, Storybook, CSS Modules, Playwright, Jest, team mentoring, architecture reviews

Education

B.S. in Systems Engineering, Universidad Nacional de Colombia
