

Mateo Silva

Full Stack Developer | Lima, Peru

Languages: Spanish (native), English (professional)

Summary

Full stack developer with stronger backend ownership but meaningful React experience building internal tools, forms, and dashboards. Comfortable across APIs, SQL, and frontend implementation.

Experience

Andes Cloud | Full Stack Developer | 2022-Present

Built CRM modules with React, TypeScript, and Node.js for internal operations teams.

Implemented authenticated forms, table views, and API integrations with clean loading and validation states.

Primary ownership remained on backend services, database schema changes, and integrations.

PixelForge | Software Developer | 2019-2022

Created small React interfaces for support and reporting workflows while maintaining Python services.

Skills

React, TypeScript, Node.js, PostgreSQL, Express, REST APIs, Jest, Docker, GitHub

Education

B.S. in Computer Science, Pontificia Universidad Catolica del Peru
