

Andres Vega

JavaScript Developer | Guatemala City, Guatemala

Languages: Spanish (native), English (intermediate)

Summary

JavaScript developer with mixed frontend experience in Vue and React. Has worked on admin interfaces and business forms, but React depth and testing practices are less consistent.

Experience

Grupo Nexa | JavaScript Developer | 2022-Present

Maintained internal business applications built mainly in Vue, with some React modules for reporting screens.

Integrated REST endpoints, user permissions, and form validations.

Helped debug browser issues and improve navigation flows.

CodeRiver | Frontend Developer | 2019-2022

Implemented reusable UI components and front-end fixes in React and vanilla JavaScript.

Skills

JavaScript, React, Vue, REST APIs, CSS, form handling, browser debugging, Git

Education

Technical Degree in Software Development, Universidad Galileo
