

Ricardo Lopez

Backend Engineer | Quito, Ecuador

Languages: Spanish (native), English (professional)

Summary

Backend-focused engineer with occasional frontend support in React for internal dashboards. Strong on APIs and databases, but limited depth in UX, design systems, and frontend architecture.

Experience

CoreAxis | Backend Engineer | 2021-Present

Designed REST services and PostgreSQL models for an enterprise workflow platform.

Added minor React screens for admin configuration and support tools when frontend bandwidth was limited.

Focused mostly on Node.js services, queue processing, and observability.

StackFoundry | Software Engineer | 2018-2021

Built integrations and internal automation tools with Python and Java.

Skills

Node.js, PostgreSQL, Python, Java, REST APIs, Docker, React basics, CI pipelines

Education

B.S. in Computer Engineering, Escuela Politecnica Nacional
