

Fernando Castillo

Mobile Developer | San Salvador, El Salvador

Languages: Spanish (native), English (intermediate)

Summary

Mobile engineer specialized in React Native and native app delivery. Shares some JavaScript and component thinking with web frontend, but has very limited experience shipping React web applications.

Experience

AppTrail | Senior Mobile Developer | 2021-Present

Built React Native features for logistics and field operations apps.

Maintained mobile state management, offline sync behavior, and release pipelines.

Worked occasionally on a small internal web portal for device setup.

MoveFast | Mobile Developer | 2018-2021

Implemented Android and React Native screens for customer-facing applications.

Skills

React Native, JavaScript, TypeScript, mobile UI, API integration, app releases, limited React web exposure

Education

B.S. in Computer Science, Universidad Centroamericana Jose Simeon Canas
